Urgent Return receipt Sign Encrypt

Dear Sir

I'm a mid-age woman & would like to comments about that proposal about personal insurances

I got accident, women & critical disease, hospital insurances being paid HKD 1,900 a month & my company have staff medical insurance for me too

under this circumstances that what I hope is not necessary to buy any on top of my medical insurances scheme, still one of the way to encourage people to buy volunteer, please consider those amounts are to be deducted from our yearly income for tax purpose.

With Best Wishes

BP
