

Indicative forward procured equipment list

Forward procured furniture and equipment items are furniture and equipment items that have specific building and building services requirements or require special installation plans which have to be considered in the building design stage. The list is for reference only, and does not represent a complete list of items under this category, and items included in the list do not imply that they will be provided or funded by the Government. The below list should be read in conjunction with the aforesaid Planning and Design Brief and the Schedule of Accommodation which are available at the below links in the FHB website.

Indicative loose furniture and equipment items that may fall under the Government's policy on replacement of major equipment

The following list of loose furniture and equipment items may fall under the government's policy on replacement of major equipment. As the price of individual furniture and equipment items may vary with market situation and the Government's policy on replacement of major equipment may vary, the list is for reference only. Furthermore, the list does not represent a complete list of items under this category and items included in the list do not imply that they will be procured. The below list should be read with the Planning and Design Brief and the Schedule of Accommodation (SoA) which are available at the below links in the FHB website.
